TRATON HOMES™
SINCE 1971

Owning a new **Traton** home just became more affordable with a **Permanent Rate Buydown!***

A permanent rate buydown is a mortgage financing option where the builder pays an upfront fee at closing to permanently reduce the interest rate on the loan.

WHAT DOES THIS MEAN FOR YOU?

- ✓ Your **interest rate stays lower** for as long as you have the mortgage.
- ✓ You'll enjoy **smaller monthly payments** every month, not just in the beginning.
- ✓ It can lead to **long-term savings** on total interest paid over time.

When you finance your new **Traton** home with **Homeowners Financial Group**, you can take advantage of these savings. **Let's talk about how a permanent rate buydown can make your new home more affordable today!**
